

THINK YOU CAN DRIVE?

**SIR ISAAC NEWTON'S
TOTALLY AWESOME DRIVING SCHOOL**

Learn how to really control a car... and maybe save your life.

A TEEN DRIVING CLASS LIKE NONE OTHER

This class is a rare chance for young drivers to learn how to really control a car. Real hands-on experience lets them feel what it's like to maintain and lose control of a car. It's a lot more fun than any other driving class – but also a lot more serious. Drive Lab will not teach drivers how to pass the test, Drive Lab teaches how to stay alive and stay safe behind the wheel.

At least one parent must accompany each teen driver at all times (careful, you may learn as much as your kid does.) As Miriam teaches, it's all about understanding how to use the Laws of Physics to your advantage; no matter what you do, physics dictates how your vehicle will react when in motion...

WHO:

Teens must have license or Learner's Permit.
One parent must attend with each teen driver at all times.
Bring your car – no SUVs or Vans, no car sharing.

WHEN:

Saturday, Nov. 21, 2010
7am – 4:30pm, Lunch included

WHERE:

Stonewall Jackson High School
Manassas, VA

COST:

Just \$150 total – covers both parent and child

REGISTER NOW:

For more information, call 202-265-3438
To register, go online to www.Drive-Lab.com
Registration must close November 15th.

THE PHYSICS
OF DRIVING.

Miriam Schottland created and leads this course. She is an amazing teacher and her passion is safe driving. Miriam has been featured on radio, TV, in print and has taught for the FBI, DoD, CIA, Cadillac and Volvo. The most energetic 75-year-old you'll ever meet, Miriam is a professional driver who's taught the best. She brings a unique

perspective. She captivates drivers young and old – she's funny, engaging – and makes you think. And yes, it doesn't hurt that you get to do things with your car that would normally get you grounded for a month.
