

DRIVELAB

FREE

Driving Conference

Sponsored by:

CURRY'S AUTO SERVICE
complete automotive service

Thursday, October 8
6:00 p.m. Gainesville, VA

Learn "Why cars do what they do!" This and many more topics will be addressed with interesting and amusing graphics and other examples during this fascinating lecture on the Physics of Driving!

- Geometry of a turn
- Weight transfer and contact patches
- Skids
- ABS & Braking

Presented by Miriam Schottland of DRIVELAB.

She has 15 years experience in teaching counter terrorism, accident avoidance, high performance driving and racing at the most prestigious, advanced driver training facility in the country. Clients have included the FBI, DIA, AAA, police departments, and the State department. Currently Chief Instructor for the Northern Virginia Corvette Club, Schottland was Chief Instructor for the BMW Club, Co-Chief Instructor for the Audi Club, and Chief of Instructor Training for Porsche Club. Charming, knowledgeable and quick-witted, she is a crowd pleaser. Her hero is Sir Isaac Newton, whose discovery of the Laws of Motion are intricately involved in driving our vehicles safely today.

Space is limited; Register NOW!
