

AUTISM SPEAKS™
It's time to listen.

Saturday, July 4, 2009

Curry's Automotive Service sponsored two runners, Nick Peyton and Adrian Vigneault, to run in the 9th Annual Autism Speaks 5k run and one mile walk in Potomac, Maryland. The Curry's team joined over 1200 other runners in raising over \$155,000 to help increase awareness and fund research into the causes, prevention, and treatment of autism. Autism is the fastest-growing serious developmental disability in the United States with 67 children being diagnosed every day. One in every 150 children are diagnosed with autism, and in that statistic one in every 94 boys are on the autism spectrum. Thanks to the commitment from the many runners, walkers, and volunteers, including the team from Curry's Automotive Service, the Potomac 5k was a major success this year, and our community is another step closer to finding a cure for autism. For more information on Autism Speaks, please visit our website at: www.autismspeaks.org.
